A full day of professional development and make-and-take for K-5 teachers with specific break-out sessions for primary and intermediate. Participants will learn how to create and manage meaningful hands-on literacy activities to use during the reading block. All tasks are designed to be multi-level and open-ended so that students can spend time practicing reading skills and strategies taught and modeled in whole and small group lessons. All participants will leave with a minimum of 20 activities and a resource packet ready to be used the next day!
